

IHE Special Event: Connect-a-thon 2008

Every year all **IHE** participants are involved in two week-long events, called **Connect-a-thon**, in U.S.A. and Europe. During this weeks all systems are interconnected, and the IHE application profiles are thoroughly tested as "in the real world". After successfully participating in one of the International Connect-a-thon events, the equipment can be officially declared conform to the tested IHE profiles, and enrolled to participate in the official IHE National Demos.

The Esaote MRI and MyLab[™] product families were successfully presented at the **IHE-Europe Connect-a-thon 2008** in the **St. Catherine's College, Oxford** (UK, April 7th - 11th).
