

**ESAOTE SHOWCASES VIRTUAL NAVIGATOR & FUSION IMAGING SOLUTION  
AND TWO NEW ULTRASOUND SYSTEMS, MYLAB™SIX & MYLAB™GAMMA,  
AT ARAB HEALTH 2015**

18<sup>th</sup> December 2015 [Genoa, Italy] - At Arab Health 2015, the second largest healthcare exhibition and congress in the world and the largest in the Middle East, ESAOTE will showcase **Virtual Navigator fusion imaging.**

Virtual Navigator provides the ability to fuse real-time ultrasound images with magnetic resonance imaging (MR), computed tomography (CT), positron emission tomography (PET) and 3D ultrasound. Particularly useful for liver and other abdominal interventions, Virtual Navigator can also be used for urologic, musculoskeletal, peripheral vascular, and transcranial radiologic exams.

Also at Arab Health 2015 two new ultrasound systems will be showcased, solidifying ESAOTE's position as the leading innovator in the global ultrasound market, delivering affordable productivity, efficiency and value. **MyLab™Six** and **MyLab™Gamma** have been developed to address key segments of the imaging market, strengthening ESAOTE's global ultrasound portfolio - from application-specific to fully shared services solutions.

As a leader in ergonomics and design simplicity, Esaote has engineered the MyLab™Gamma and MyLab™Six to meet the strenuous demands of the sonographer's working environment. High on vision, low on noise, these 'green' ultrasound systems with remote service capabilities improve user comfort without compromising diagnostic confidence.

*"These versatile, valuable and efficient new products are the work of considerable research into the current and future demands of the market place,"* said Carlos Alonso, CEO, Esaote.

### **MyLab™Six**

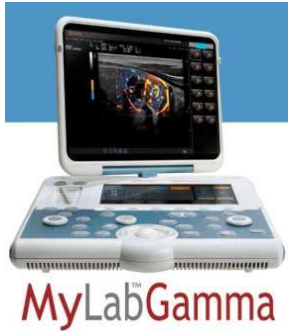

MyLab™Six is a complete cart-based system that can be used across a broad range of applications from general imaging to women's health and cardiovascular. It comes with advanced scanning features, software and probes.

*"MyLab™Six represents the extra steps we are taking to add value and efficiency to ultrasound in any specific clinical setting,"* explains Giovanni Altobelli, Ultrasound Marketing Product Manager at Esaote. *"It offers a premium system, yet affordable, to customers requesting user comfort, performance and versatility. The optimized and automated workflow are key to maximising patient throughput without compromising diagnostic confidence."*

## MyLab™Gamma

MyLab™Gamma, Esaote's latest portable laptop sized ultrasound, provides fast boot up and resume from-standby which means the system is ready to use within seconds. Integration of wireless connectivity and one-click networking sets MyLab™Gamma apart from traditional portable ultrasound.

*“MyLab™Gamma finally sets ultrasound free,” explains Joop Geijssen, Ultrasound Project Manager at Esaote. “We now bring superb image quality and fast clinical decision making right at the point of care.”*

Incorporating high resolution with a range of probes makes MyLab™Gamma an optimal ultrasound solution for Cardiovascular and other General Imaging applications.

## Additional Dedicated MRI advances unveiled at ARAB HEALTH

The new **eXP Technology** upgrade for Esaote's **Dedicated MRI systems** allows to achieve the next step in terms of image quality, reducing examinations time and increasing the clinical confidence.

Esaote MRI portfolio will be showcased at the Esaote booth S2C50 and clinical presentations will be conducted to demonstrate the new features.

**O-scan** will be presented to show its unique design, ergonomics, operator usability and an incredibly small installation footprint.

The weight-bearing MRI capabilities will be demonstrated at the booth with **G-Scan Brio**. It represents the best solution in terms of clinical value and cost-effectiveness.

**S-Scan** can be considered the perfect integration to the Esaote's Dedicated MRI portfolio, for all those customers who are looking for high performances on MSK.

COME AND SEE HOW eXP TECHNOLOGY REPRESENTS A STEP FORWARD IN MRI!

EXPERIENCE THE ESAOTE WORLD FOCUSED ON HEALTHCARE AT ARAB HEALTH 2015:

### **About Esaote**

With €276.1 million consolidated sales in 2013 (of which 65% were generated from international markets), Esaote Group is a leading player in the biomedical equipment sector, with a particular focus on ultrasound, dedicated magnetic resonance, and software for managing the diagnostic process. Esaote has over 1,335 employees, 19% of which are employed in R&D activities. Esaote has industrial and research units in Italy (Genoa, Florence, Naples), the Netherlands (Maastricht) and China (Shenzhen). Esaote is internationally recognized as one of the “**Top Ten**” diagnostic imaging companies in the world and enjoys the co-operation of worldwide scientific and clinical research centers and universities. Esaote has filed more than 120 international patents.

Information about the Esaote Group and its products is available at [www.esaote.com](http://www.esaote.com)

Technology and features are system/configuration dependent. Specifications subject to change without notice. Information might refer to products or modalities not yet approved in all countries. For further details, please contact your Esaote sales representative.
