# @HD Technology

- Ultrasound Imaging Innovation
- Enhanced Diagnostic Value
- Maximization Signal Information
- Low power consumption
- More efficient healthcare

## Innovative Image Quality

@HD is the Esaote technology to innovate ultrasound imaging and improve the systems' use. It represents our attention to the diagnostic value, optimizing all the aspects of the chain a signal has to travel through, starting from the echo generated by the patient's body up to the arrival on the system's monitor. It maximizes the efficiency of ultrasound scanning, leaving the sonographer free to concentrate on the patient.
