Date	Time	Webinar	Link GoToWebinar sessions
27.05.2020	6:30-7:30 PM CET	Localization of the problem to the spinal cord through clinical cases (C. Falzone)	https://attendee.gotowebinar.com/register/5045631778954079246?source=Esaote
10.06.2020	6:30-7:30 PM CET	Localization of the problem to the brain through clinical cases (C. Falzone)	https://attendee.gotowebinar.com/register/9110491082513770766?source=Esaote
24.06.2020	6:30-7:30 PM CET	Differential diagnosis and why MRI is important? (C. Falzone)	https://attendee.gotowebinar.com/register/1037784352405897998?source=Esaote
08.07.2020	6:30-7:30 PM CET	Principles of MRI and understanding MR images formation (Luca Balbi)	https://attendee.gotowebinar.com/register/3325050013157165836?source=Esaote
22.07.2020	6:30-7:30 PM CET	Case of the week: is this a disc herniation? (C. Falzone)	https://attendee.gotowebinar.com/register/6708681598917087500?source=Esaote
02.09.2020	6:30-7:30 PM CET	Case of the week: spinal neoplasia (M. Konar)	https://attendee.gotowebinar.com/register/3282365872255517452?source=Esaote
16.09.2020	6:30-7:30 PM CET	Case of the week: is this a discospondylitis? Any other inflammatory disorders of the spine? (C. Falzone)	https://attendee.gotowebinar.com/register/5062721488229535500?source=Esaote
30.09.2020	6:30-7:30 PM CET	Case of the week: brain inflammation (M. Konar)	https://attendee.gotowebinar.com/register/6937768145099234572?source=Esaote
14.10.2020	6:30-7:30 PM CET	Case of the week: spine – vascular incidents? (M. Konar)	https://attendee.gotowebinar.com/register/5625436146162581260?source=Esaote
28.10.2020	6:30-7:30 PM CET	Case of the week: brain tumor (M. Konar)	https://attendee.gotowebinar.com/register/4331243890060998924?source=Esaote
11.11.2020	6:30-7:30 PM CET	Case of the week: is this a congenital anomaly? (C. Falzone)	https://attendee.gotowebinar.com/register/6859001331108764684?source=Esaote
25.11.2020	6:30-7:30 PM CET	Case of the week: spinal trauma (M. Konar)	https://attendee.gotowebinar.com/register/2045528540705450252?source=Esaote
09.12.2020	6:30-7:30 PM CET	Case of the week: brain trauma (M. Konar)	https://attendee.gotowebinar.com/register/3320169281042027020?source=Esaote
23.12.2020	6:30-7:30 PM CET	Understanding advanced MRI image formation techniques (L.Balbi)	https://attendee.gotowebinar.com/register/7439160840528139020?source=Esaote
