

# Image Quality in a **Compact Design**

## Outstanding Image Quality

UP TO **23**  
TRANSDUCERS

## Italian design

## Ergonomics & workflow

## eTouch stress reduction\*

eTouch macro recorder that recalls a complex set of actions with a single activation

## Ergonomic probe design

**-70%**

**REDUCED MUSCLE STRENGTH\***

Esaote appleprobe Design transducers offer a reduced muscle strength of 70% compared to traditionally-designed transducers.

## Probe technology

**SINGLE CRYSTAL PROBE  
TECHNOLOGY**

**5 ADAPTIVE  
LAYERS**

## TOUCHSCREEN USER INTERFACE

In a well-defined area close to the trackball, reducing repetitive reaching movements and several repeated uncomfortable actions.

UP TO **30%** LOWER  
EXECUTION TIME

UP TO **50%** LESS  
MUSCLE ACTIVATION

UP TO **17%**  
LESS UPPER BODY  
MOVEMENTS

UP TO **30%**  
FEWER KEYSTROKES
