

EULAR 2015 - Scientific Programme

Thursday 11 June 2015

13:45 - 15:15 Room 8 A

Practical Skills Session

Ultrasound Basic I

Learning Objectives:

Use and interpretation of US techniques to support diagnosis of the bespoken disease manifestations

Chairperson(s): Sandrine Jousse-Joulin (France), Wolfgang A. Schmidt (Germany)

13:50 Emilio Filippucci (Italy)

Basic skills for diagnosing crystal deposits in gout + Demo

14:10 Frédérique Gandjbakhch (France)

Basic skills for diagnosing enthesitis in SpA + Demo

14:30 George W. Bruyn (Netherlands)

Basic skills for diagnosing tenosynovitis in RA + Demo

14:50 Ingrid Möller (Spain)

Basic skills for diagnosing lateral hip pain + Demo

Scientific Programme

Thursday 11 June 2015

15:45 - 17:15 Room 8 A

Practical Skills Session

Ultrasound Advanced I

Learning Objectives:

When and how to best apply contrast in US

How to use US in evaluation and diagnosis of the bespoken disease manifestations

Chairperson(s): Annamaria Iagnocco (Italy), Marcin Szkudlarek (Denmark)

15:50 Louise Diederichsen (Denmark)

How useful are contrast agents in US for myositis? (+ Demo)

16:10 Joelle Decamps (France)

Abstract no SP0122

How to evaluate subclinical atherosclerosis with US of the carotid artery + Demo

16:30 Georgios Filippou (Italy)

Abstract no SP0123

How to evaluate CPPD using ultrasound + Demo

16:50 Hilde Berner Hammer (Norway)

Abstract no SP0124

How to enhance synovitis detection: impact of joint position and scanning technique + Demo

Scientific Programme

Saturday 13 June 2015

08:30 - 10:00 Room 8 A

Practical Skills Session

Ultrasound Basic II

Learning Objectives:

Use and interpretation of US techniques to support diagnosis of the bespoken disease manifestations

Chairperson(s): Sandrine Jousse-Joulin (France), Wolfgang A. Schmidt (Germany)

08:35 Emilio Filippucci (Italy)

Basic skills for diagnosing crystal deposits in gout + Demo

08:55 Frédérique Gandjbakhch (France)

Basic skills for diagnosing enthesitis in SpA + Demo

09:15 George W. Bruyn (Netherlands)

Basic skills for diagnosing tenosynovitis in RA + Demo

09:35 Ingrid Möller (Spain)

Basic skills for diagnosing lateral hip pain + Demo

Scientific Programme

Saturday 13 June 2015

12:00 - 13:30 Room 8 A

Practical Skills Session

Ultrasound Advanced II

Learning Objectives:

When and how to best apply contrast in US

How to use US in evaluation and diagnosis of the bespoken disease manifestations

Chairperson(s): Annamaria Iagnocco (Italy), Marcin Szkudlarek (Denmark)

12:05 Louise Diederichsen (Denmark)

How useful are contrast agents in US for myositis? Demo

12:25 Joelle Decamps (France)

How to evaluate subclinical atherosclerosis with US of the carotid artery + Demo

12:45 Georgios Filippou (Italy)

How to evaluate CPPD using ultrasound + Demo

13:05 Hilde Berner Hammer (Norway)

How to enhance synovitis detection: impact of joint position and scanning technique + Demo
