NEVER STOP ELEVATING YOUR VET EXPERIENCE.
MyLab™ VET
OUTSTANDING PRODUCT LINE

A GLOBAL LEADER

Esaote is a recognized global leader in ultrasound veterinary imaging, focused on providing smart solutions for your everyday practice.

30 YEARS EXPERIENCE

Thanks to 30 years experience, a wide range of products has been designed specifically for your needs, from cart-based complete systems to compact portable products.

DEDICATION AND VISION

Our mission is to follow you all the way, supporting your daily workflow and elevating your vet experience through new advanced approaches and technologies.

Dedicated vet software and probes

Windows® 10

Fast start-up

Zero-click technology

Full-screen visualization

High response capacitive touchscreen

30 YEARS EXPERIENCE

Thanks to 30 years experience, a wide range of products has been designed specifically for your needs, from cart-based complete systems to compact portable products.
Dedicated vet software
and probes
Windows® 10
Fast start-up
Zero-click technology
Full-screen visualization
High response
capitive touchscreen

NEVER STOP ELEVATING YOUR VET EXPERIENCE

CART-BASED

PORTABLES
Ultrasound HAS NEVER BEEN EASIER

SINGLE PROBE APPROACH

With just one probe it will be possible to make a complete imaging medical examination, and simplify your everyday practice. Ultrasound has never been easier.
NEVER STOP ELEVATING YOUR VET EXPERIENCE

FROM CARDIAC AND ABDOMINAL TO ORTHOPEDIC APPLICATIONS
Complete CARDIOVASCULAR PACKAGE

MAKE FAST AND ACCURATE DIAGNOSES ADDING VALUE TO YOUR EXAMINATIONS:

- **CMM** - M-Mode quality & cardiac examination efficiency
- **TVM** - wall motion analysis for myocardial function
- **Zero-click EF** - automatic ejection fraction computation
- **XStrain™** - endocardial velocity quantification & heart deformation detection
- **Smart stress-echo** - complete ejection fraction reporting for cardiac segment evaluation
Fast and accurate diagnosis

- M-Mode
- CMM & TVM
- Zero-click EF
- XStrain™
- Smart stress-echo package

Never stop elevating your vet experience
Clinical confidence REQUIRES HIGH PERFORMANCE & ADVANCED TOOLS

- **22 MHz probe** with very high-res images
- **microV** - fast non-invasive hemodynamic evaluation with high sensitivity for lesion characterization
- **Needle enhancement** - valuable aid in interventional practice
- **ElaXto** - non-invasive assessment of tissue elasticity
- **Fusion imaging** - CT, MRI side-by-side with real-time ultrasound
- **CnTI™** - advanced technology for Contrast Enhanced Ultrasound (CEUS) imaging
- **QPack** - multimodality quantification tool for CnTI™, Color & Power Doppler
Advanced approach and technology
The worldwide medical imaging community has entered a new era of communication opportunities. Today with the multi-modality tool it is possible to combine real-time ultrasound imaging with a wide range of second-imaging modalities (MRI, CT, 3D imaging, Doppler, Contrast Enhanced Ultrasound) to reach a fast diagnosis. With Streaming the real-time examination can be displayed on multiple devices thus allowing everyone to have direct access to the examination.
• DICOM connectivity (including Q/R)
• Multi-modality archive
• Wireless connectivity
• MyLab™ Desk evo viewer
• MyLab™ Tablet
Never stop elevating 

Your vet experience.
