# Shaping the Future

## Ultrasound

## Dedicated MRI

**MyLab™Twice**

**MyLab™Seven**

**MyLab™40**

**MyLab™Alpha**

**NEW**

**@HD** is the Esaote technology which innovates ultrasound imaging by improving quality, flexibility and use of the system. It represents our attention to diagnostic value, optimizing all aspects of the chain a signal travels through, starting from the echo generated by the patient's body up to the image display interface. It maximizes the efficiency of ultrasound scanning, leaving the sonographer free to concentrate on the patient.

**NEW**

**@XP** Technology sums up to faster overall system response thanks to a number of sophisticated MRI software techniques and a high-power workstation.

## **@XP** Performance enhancements

By combining sophisticated acquisition and reconstruction methods such as SpeedUp and TR reduction (Patent pending), eXP will substantially improve the MRI examination by reducing scan times and improving image quality.

## • **Advanced hardware**

A hardware platform that can handle advanced software such as SpeedUp; designed around the new concept of GPU based parallel computing for exceptional computer speed.

Focus on:

**RSNA® 2013**  
THE POWER OF PARTNERSHIP

# Shape the Future

The most Complete  
all-in **RIS PACS**  
Software Platform

## SUITESTENSA 3D

The newest 3D applications into  
your daily RIS PACS workflow

## MobilePACS

Mobile access to your DICOM and  
Web images anytime, anywhere

*Committed to Education*

## The RSNA 2013

Ultrasound "Hands-on" Refresher courses  
will be supported by Esaote with the  
MyLabTwice.

Please refer to the RSNA 2013 Scientific  
Programme for further details.
