

Changing the role of Ultrasound Imaging

- Heart-vessel combined examination
- Early CVD detection
- Treatment monitoring

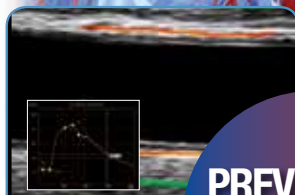

Improved quality of life & more affordable care

RFQIMT
Quality Intima Media Thickness

RFQIMT

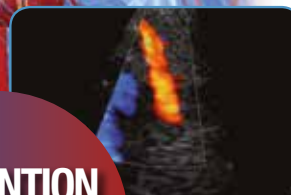

Quality Intima Media Thickness for early detection of cardio-vascular diseases

RFQAS
Quality Arterial Stiffness

RFQAS

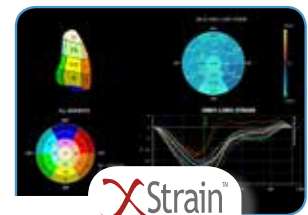

Quality Arterial Stiffness for early detection of cardio-vascular diseases

CFI
Coronary Flow Imaging

CFI

Coronary Flow Imaging to assess coronary artery blood flow and its main characteristics

XStrain™
2D Speckle Tracking

XStrain™

Strain-Strain Rate top analysis technique for myocardial function evaluation

PREVENTION Suite

Shape the Future

The most Complete all-in **RIS CVIS PACS** Software Platform

- Radiology, Nuclear Medicine, Radiotherapy, Interventional Radiology
- Cath-Lab & Interventional Cardio, Echo, Ecg, EP, Cardio Surgery, Structural Cardio
- 2D, 3D, 4D for CT, MR or PET datasets, X-ray angiography, cardio US, endovascular and transcatheter aortic analysis
- MobilePACS access to DICOM and Web images

@HD Technology

- Ultrasound Imaging Innovation
- Enhanced Diagnostic Value
- Maximization Signal Information
- Low power consumption
- More efficient healthcare

@HD is the Esaote technology to innovate ultrasound imaging and improve the systems' use. It represents our attention to the diagnostic value, optimizing all the aspects of the chain a signal has to travel through, starting from the echo generated by the patient's body up to the arrival on the system's monitor. It maximizes the efficiency of ultrasound scanning, leaving the sonographer free to concentrate on the patient.

MyLab™Twice

MyLabTwice eHD represents a "paradigm shift" in the hospital organization, combining premium performance and point-of-care ultrasound.

MyLab™Seven

MyLabSeven eHD delivers high class performance via a very compact interface. Designed around a revolutionary productivity-oriented platform, MyLabSeven eHD combines performance, ergonomics, mobility and Connectivity at the highest level: a real breakthrough in its class.

MyLab™Alpha

MyLabAlpha eHD, premium portable ultrasound, delivers features and performance never seen on a portable system.

MyLab™40

When it comes to routine work, reliable diagnosis, completeness and ergonomics are the most important factors. MyLab40 eHD is a balanced and affordable solution, able to provide solid basic performance.
