

## Press Release

### Join ESAOTE AT ESC 2017 - European Congress of Cardiology, Booth #G850

26 August 2017 [Barcelona, Spain] - **ESAOTE**, one of the world leaders in the manufacture of diagnostic ultrasound systems and probes, on the market for more than 30 years, has the pleasure to support the **ESC 2017, European Cardiovascular Congress** (Barcelona, Spain - August 26<sup>th</sup>-30<sup>th</sup>), with its dedicated product portfolio that ranges from compact to cart-based **Ultrasound Systems** and high performance **Healthcare IT** solutions - **Booth n. G850**.

You are invited to join us and learn more about **Esaote White Papers** focused on our advanced technology with **MyLab™Eight**, **MyLab™Alpha** and **MyLab™Seven** ultrasound systems:

- **“Vascular Biomarkers in Cardiovascular Risk Prediction & Radiofrequency-based Vascular Ultrasound Technology”** - Deformation imaging, based on Speckle Tracking techniques, is a promising technology for the evaluation and quantification of cardiac mechanics. In particular, during the last decade, a growing body of scientific evidences has shown that this technology, can provide incremental information in many clinical settings
- **“EACVI-ASE-Industry Initiative to Standardize Deformation Imaging”** - The use of cardiovascular biomarkers in conjunction with risk scores is expected to refine the risk stratification of an individual subject and to guide his therapy. Biomarker is a characteristic that is objectively measured and that reflects early functional and structural changes in cardiovascular system, before overt disease manifestation. Vascular biomarkers may be particularly informative

Discover how it can be smart to calculate advanced parameters like 4D STRAIN and ARTERIAL STIFFNESS in the easiest way.

The new **“Transthoracic Echocardiography”** poster focused on clinical highlights will be distributed at ESAOTE BOOTH G850.

Focus on **Suitestensa CVIS PACS** Enterprise IT software for seamless integrated workflows processes in multiple departments and enterprise networks to facilitate information sharing.

### ESAOTE AT ESC 2017, BOOTH G850: INNOVATIVE CLINICAL SOLUTIONS FOCUSED ON CARDIOVASCULAR APPLICATIONS.

#### About Esaote

With a consolidated turnover of EUR 270 million in 2016, the Esaote Group is a leader in the biomedical equipment sector, in particular the areas of ultrasound, dedicated MRI and software for managing the diagnostic process. The Group currently employs 1,250 people, 50% of which are based outside Italy. With its own production and research units in Italy and the Netherlands, Esaote is recognised as one of the top 10 diagnostic imaging companies in the world by authoritative studies and fosters collaborations with clinical and scientific research centres and universities around the world. Information regarding Esaote and its products is available online at [www.esaote.com](http://www.esaote.com)
