Press Release

Esaote North America announces a NEW addition to its Veterinary Ultrasound Portfolio with the dynamic MyLab™X75VET Ultrasound System.

[Fishers, IN, USA] September, 14, 2021 – **Esaote North America** announces the addition of a **new dedicated veterinary ultrasound product** available for purchase **in the USA**, the **MyLab™X75VET** ultrasound system. The **MyLab™X75VET** is equipped with **Esaote's dedicated veterinary software and probes** to address the demanding imaging needs of a **wide range of veterinary applications**. This versatile console is **ergonomically designed** and offers **premium cardiac imaging** and an **advanced measurement package**. Additional features include:

- Dedicated Veterinary software and probes - up to 22MHz
- Workflow enhancements like easyMode, easyColor, and eScan
- Optimized cardiac imaging
- Integrated battery and Connectivity

Esaote North America is internationally recognized as a leader in providing **superior Ultrasound solutions and Dedicated MRI systems**. The latest portfolio of Ultrasound systems and MRI platforms are built on a Windows® 10 operating system for optimal security and equipped with advanced workflow enhancements to help users optimize workflow and increase efficiency.
